PROPRIETORS. TABLE THE NAME AND PIRM OF

RUFUS KING & CO. PROMOUR NEW YORK CORRESPONDENT

New York, March 30. The months wax and wane-sea-on succeeds season—and the life of Spring leaps forth statedly from the death like torpor of Winter. Change and progress mark all nature and all natural bodies; but they touch not, affect not, that very artificial and unnatural body called Congress. Four months have elapsed since the meeting of this assemblage of the wise men of the nation—the Saxon same ever-recurring, tedious story of personal aspirations, personal griefs, party aims and party calculations—without one apparent thought of Country, or the large interests of this large nation -Every year more and more convinces me that true Every year more and more convinces in a diagram policy requires that the pay of Congressmen should be in the shape of an annuly, instead of a per diem, and then short sessions would obtain, and better manners and better morals among the members.-Washington is a bad school either of manners, or morals-unavoidably so, from being for the most port, a city dependant upon the patronage and expenditure of government-and little disposed therefore, by too severe an exercise of free opinion upon the doings and misdoings of Congressmen to quarrel with the means by which the majority of the City lives. There are, it is needless to say, many honorable exceptions; many households whose domestic virtues and frank sentiments and right views upon all points of politics, letters, and morals would honor any city; but in the aggregate Washington is a city of dependants, where free opinion, which touches those who have charge of the purse-strings, expires. The shorter the term, therefore, during which Members of Congress are exposed to its moral atmosphere, the better for them, the better for the country; and I know of no mode so effectual to secure that result, as to give them an annual salary which it would be upon the whole, the interest of the greater portion to spend mainly at home. They would then go to Washington to work, and not to waste time in

men will permit. The difficulty, however, of bringing about this change, over and above the popular objec-tion to any thing like a stated salary, instead of paying the day's work, or appearance of work, daily-would be in fixing the per dien. Some-where about 1815, if I remember rightly, Congress did attempt this change and voted themselves \$1500 a year, to each member; but not more than half-a-dozen of all who voted in the affirmative on this law were re-elected. This seemed clearly to prove, either that the popular mind was not ready for such a change at all, or that the sum proposed exceeded, in the popular esti-mate, the value of the services to be rendered.— Yet, if the Press would take the subject up and by interchange of opinion and discussion of the whole question fix public attention upon it, a just proportion between services and salary might be established, and the principle of annual compenention be made acceptable.

order to swell the amount of their perdien ; and

real purpose of work, it is sure to be well done, or

at least as well done as the capacity of the work-

An annuity of \$1200 would, as it seems to me be a fair equivalent for the average talent and time given to Congress, together with Mileage (never to be charged constructively) to and from the scat of Government. The rate of this mileage, however, ought to be very materially reduced. It is a mockery, in these days of cheap travel by steam and rail to estimate 20 miles as a day's journey When that rate was established all the member of Congress nimest, reached their posts on horseback, and were chargeable therefore with expensed for man and beast; and, upon the whole, an average of 20 miles a day was not unreasonable horseback to Washington, and it would be below the average of the rates of travel-even from Califormin-to estimate a day at less than 100 miles This would about fairly represent the expense of travel and if the eight dollars now given for every 20 miles were given for 100, there would be no great ground of complaint.

Although Congress do little, there are publications authorized by it, from time to time, whichamong much trush that is never read the' dearly paid for out of the public purse-are very in structive and even startling. One of these is now before me in the shape of a report to the President, from the Commissioner of the Land Office in answer to a call of Congress. In presents, in a series of tabular statements, "the extent of our new territorial acquisitions in connection , with that of the States and former Territories of the Union." It is a very remarkable document, meriting much study and reflection. I can only give you, in case you have not seen it, some few of the chief items. First, as to the extent of the new.-The area of Texas, New Mexico, California and Oregon is 1,103,061 square miles, or 763,519,040 nores. The aggregate of the old is 2,059,628 square miles, or 1,318,358,720 acres. We have therefore added-to our Empire, within the last four or five years, an extent more than half of its former size, or an accession equal to the size of all Europe, excluding Russia. Our whole Territorial possessions old and new, equal in surface the whole of Europe, including Russia. What a mighty, fact is here for the Statesman and Philauthropist to ponder! An Empire under one system of general government, one system of lands, one language, one polity, as large as all Lurope, cut up Ly varying systems of Government, various and conflicting laws, language and politics. What a motive is here for perpetuating that Union which is to secure such inestimable privileges-what a field for honorable ambition to devise and be instrumental in carrying out, the legislation fitted to advance the character, consolidate the power and seeme the happiness of such an Empire!

Then again, as to the extent of our Sea-coast By the annexation of Texas and the Treaty with Mexico, we acquired 400 miles of sea-coast on the Gulf of Mexico, extending from the Sabine to the Rio Grande-and 970 miles on the Pacific, extending from one marine league South of San Diego between 32 and 33 degrees of North Latitude, to the 42nd degree, and we had before acquired 650 miles upon Oregon, including the Straits of Fuca; making 1620 miles of Sea-coast on the Pacific and 400 miles on the Gulf of Mexico, equal to 2020 miles of newly acquired coast Our previous extent of coast, from the Bay of Fundy to the Sabine, was 3100 miles -- the aggregate extent of our Sea-coast, therefore, is 5120 ntles-of outline-not, be it understood, tollowing the indentations of the coast, for such a line would require a multiple of 8 or 10 to represent the aggregate. Who shall say, in view of such a Seacoast on two Oceans, with such a back country that we can do too much for whatever promises to secure our naval and muritime supremacy, or that any reasonable encouragement held out to such steamers as those of the Collins Line can noticed by the printers. Lest injustice may be be deemed other than wise expenditure. By the bye, I am glad to add that I was misled by a Telegraphic report about the action of the Senate Committee in respect of these steamers, when I stated in a late letter that the appropriation askek for by them had been reported against. It was hope and believe it will be with a favorable Fund. He states that he voted against the ap-

STARTING RIGHT .- The Albany Evening Journol of the 2d instant, contains the following para-

From Madison.

DITORIAL CORRESPONDENCE OF THE SENTINEL.

Madison, April 8, 1852. Another long evening session yesterday, and the Assembly file of bills, except two, used up in Committee of the whole. The House at pesterday from 9 to 121/2 A. M., and from 2 to 51/2, and 71/6 to 10 P. M. It makes hard work, but the members are determined to push along the business. It would be an advantage to some of the grambles of the party press, if they could be here, to work through the rest of the session :--

"Hang 'cui." They say?
They if at by the fire and presume to know White showe the Caption who had be to receive the Caption who had be to receive the the training the same the concernal marriages; making perties strong, and a concernal marriages; making perties strong, and colling such as read not in their liking."

A stendy majority of the House is determine get through as speedily as possible; a respectasemblage of the wase men of the nation—the cases, to get through as specury as possible; a respecta-ble (in size) minority don't care a fig; while a small but exceedingly brilliant coterie of memas much as they can. However, there is one powerful motive that will sooner or later dissolve the Legislature, and, by the bye, that same freespoken Roman gentleman and soldier, above noted, hit the nail on the head when he spoke of the ferocious running-away of the troops : 'They are dissolved; Hang'em!
They said they were an hungry; signed forth proverbs;
That hunger broke stone walk—that dogs must est, &c.

The only bill which excited much debate in Committee of the whole last evening was that one, introduced by Mr. Mott from the select committee, proposing to establish an Emigrant Agen cy, in New York City. Immediately on the cading of the bill, Mr. Sholes moved to strike out the first section, very frankly stating his desire to all the bill. The discussion was interesting for about an hour, several members making streamou pposition to the establishment of the Agency .-On a test vote in Committee, the project was sustained by a small majority. Still, I have doubts as to its passage through the Legislature. It is astonishing that some members, as shown by the lebate, are so ignorant as to the cause of the recent falling off of the immigration to this state. Where it has been so clearly shown that Michigan Illinois, the Michigan Central Railroad, Ward's Line of boats, de,, de, have their unserapulous agents in New York and Buffalo, each engaged for his particular employer, but all uniting in will give to-night two, or three of his favorite raducing the climate, soil, and good name of pieces. Herr Branders is spoken of as a most Vi-consin-it is strange indeed that members annot see the propriety -- the almost necessity -when people in any vocation gct together with a hat our State should have an agent in the ficki I find, on examining the Senate journal of yeserday, that the Apportionment Bill, as it passed o its engrossment, added four members of assemly to those reported by the select committee Dodge is given six members, Walworth six, Lalay tte three, and Richland is made a district by

itself. Richland, as will be seen by the census table, had in 1850 about 900 inhabitants. The total number of Assemblymen, as near as I can cull them out from the confused mass of amendments, is 81, being 6 more than the joint resoluion required. Many of the members are dissatisfied, and there will be trouble yet. The bill passed the Senate this morning.

The House passed the Senate's joint resolution to adjourn on the 12th, after amending the date so es to make it the 19th. The Senate concurredso that much is settled. A resolution, introduced by Dr. Penk, instruc-

ting the Board of Works to adopt the Neenah channel, on condition that there be no cost to the state, was passed, a vain attempt being made to leave the matter to the discretion of the commissioners. A communication from Curtis Reed, o Menasha, was read, asking for a postponement of the decision, until he can be heard. This was urged by Mr. Blodgett, but to no purpose. Dr. Peak stated that it was an opinion generally entertained that Mr. Reed took the contract at Menasha with no intention of completing it, but only for the purpose of preventing the adoption by the state of the Neenah channel. The resolution looks very much like a snap judgment; certainly there are very few members of the House who have any practical knowledge of the comparative merits of Ex-Com and Capt. Estes, seem to have been quite active in the quarrel, their authority having been quoted by the advocates of the resolution.

A bill providing for excluding voters at a school district meeting from the right to vote taxes for teachers' wages, and confining the persons voting | before the year is out! to those qualified to vote at general elections, oc-cupied the greater part of the morning. The advocates of the bill urged in its favor, the fact that persons who are not tax payers are now allowed o vote just such tax as they pleaso upon those who are tax payers. After a long discussion, it was referred to a select committee.

The bill allowing the building of a bridge from the foot of Milwaukee-st., in our city, to the fifth Ward, was, this morning, referred-to the Judiciary Committee, on motion of Mr. Phelps.

A bill which proposes to repeal that part of the

Statutes which allows an exemption from taxes of properly equal to the amount of debts owing, was also the subject of considerable discussion, and just before adjournment at noon, was ordered to . 3d reading. The project for forming a new County, called

Franklin, out of Iowa and Grant, was killed in the Assembly. A bill, long ago introduced, providing a job for

the State Superintendent—that of revising the School laws—was debated at some length by Messrs. Entnest and Hoyt in favor, and Messrs. Richardson, Worthington and Donaldson against and killed.

"The Emigration Agency bill was made the specal order for Saturday morning next.

Mr. Sholes' bill for the abolition of laws for the collection of debts below \$50, was refused a 3rd reading, and lies among the heap of other bills claughtered ruthlessly to-day.

A Bill In relation to the support of Paupers in the city of Milwaukee:

of Milwaukee:

The steamers Isaac Newton and Rip Van WinKle were up at an early hour this morning. They
brought a large amount of freight and a goodly
number of passangers, including a party of emigrants en route for Wisconsin.

Wisconsin is the place for emigrants. There is
no State in the West that can equal it, in point of
natural advantages, and none in the Union that
exceeds it.

The People of the State of Wisconsin represented it State of Milwaukee, and of the
board Assembly, do enact as follows:
Sec. 1. It shall be the duty of the common
council of the city of Milwaukee, and of the
board of supervisors of the several towns of Milwaukee county, to see that all paupers in add
city or any of said towns are properly reliaved
and taken care of, whether such paupers are now
by law a town or county charge.

Sec. 2. Such paupers shall hereafter be relieved
at the expense of the city of town, where they reside, whether they may have gained a legal set-

tlement in such city or town, or not: Provided however, That towns shall be, as now by law they are, liable for the support of paupers who shall have a legal settlement therein.

Sec. 3. The common council of the city of Milwaukee and the supervisors of the several towns of the county of Milwaukee, shall have power to levy annually on all taxable property a tax sufficient todefray all expenses for the maintainance of the noor. ance of the poor.
c. 4. This act shall take effect as soon as

tainance of the poor.

Sec. 4. This act shall take effect as soon as the board of supervisors of Milwaukee county, and the common council of the city of Milwaukee shall by resolution accept the same. THE WISCONSIN AND ITS " BROTHER JOSATHAN!

-The Wisconsin faintly denies that it knew who wrote the scurilous communication in the Madison Democrat, which it falsely and muliciously charged upon Col. CROCKER and Mr. JAMER S. Brown, and claims the right, "as an independent journalist, to express an opinion as to who was the author." It had no right to drag the names of those two gentlemen into its columns and impute to them a piece of blackguardism of which a Anere them to be, not only innocent, but incapable. And it only did so, as we stated Saturday to gratify its monkey-malice and feed a personal grudge.

We do not profess to know who did write that choice effusion, so greedily caught up by the Wisconsin and Commercial. The latter paper, following the lead of the Madison Denocrot, charges it upon "a prominent and leading Whig of this city." The Wisconsin, with "malice prepense" and deliberate falsehood, ascribed it to two well-known and influential democrats. The latter charge we know, as did its unscrupulous author, to be a he out of whole cloth. For the credit of the Whigs of this city, we are unwilling to believe the former. The mystery, however, will soon be solved, for we understand that the Madison Democrat has been applied to for the name of the author. We are curious to see if it turns out to have been written by one of the Wisconsin's own particular friends!

A MUSICAL TREAT.-Mademoiselle Jacques and her party give a Concert at Gardiner's Hall, this evening. Report speaks highly of their merits and the press of Cleveland, Detroit and Chicago are unanimous and enthusiastic in their praise. We have not yet had the pleasure of hearing the lady, but we can vouch for Mr. Sources, the Tenor, who is one of the puty-He is one of the best singers we ever heard and promising artist and it is quite certain that their combined talents excited a furore in Detroit. Mr. Dory, the Manager, is an old resident of Milwaukce and can count many friends and acquaintances here. The Programme for to-night is a very attractive one and the Concert, we are very confident, will be an excellent one.

INTERNAL IMPROVEMENT TRIUMPH .- We men tioned briefly, in Saturday's paper, that the bill sustaining the validity of the Canal Contracts and the New York Assembly by a triumphane vote.-There were 77 yeas to 24 nays, and a majority of the absentees were also in favor of the bill. No doubt is entertained of its passage in the Senate and its approval by the Governor. Only one Whig voted against the bill. Considering the desperate efforts made to upset these contracts and arrest the progress of the improvement, the vote is equally gratifying and significant. The Bambunners however, still persist in kicking againgt the pricks and will do all in their power to hinder the work, The People will "sarve 'em out" effectually in

A CHILD FOUND.-A little Girl, about 4 years old, dressed in a pink dress, with a light summer hood, was found on Saturday last on the street and taken to the house of G. F. Becken, East Water-st., above the Market House. Whenever the Sentinel hears of a white

supervisor, or whig town ticket elected, it raises; shout over it louder than the Fourill of July How honest it must be in adveating "no-party ism" in local elections.—Commercial Adver. The Sentinel is, and always has been in favor of

choosing the best men, without regard to party o fill all local offices. But that opinion certainly does not impair its right, or weaken its disposi tion to rejoice in the success of its political friends wherever a party issue is made. Sorry, by the way, that whig music should grate so harshly on the Commercial's cars. It will hear a heap of it

THE DEATH PENALTY.-The facts stated in the following extract, from the presentment of the Grand Jury of Wayne County, Michigan, at a session of the Court in Detroit, should be attentively considered by all who are in favor of the bolition of capital punishment:

abolition of capital punishment:

The increase of crime of murder and manslaughter since the abolition or capital punishment, not only among us but throughout our
State, has become most manifestly alarming.—
The records of the Court of this County show
that, at each of the four terms, there has been at
least one aggravated case of murder—and, at
one term, two cases—whereas, presiously to the
existing law, and since our State organization,
no conviction of murder had, ever been had by
any of the Courts of the State. These facts we
regard as a proof of an alarming disrespect for,
and undervaluing human life, legitimately referrable to the change of the legislation upon this
subject.

We commend this practical view of the question to our speculative contemporary of the Waukesha Democrat, who has such a horror of the oallows.

The following amendment has been adopted to the Maine Law liquor bill, now under considera-tion in the Pennsylvania Legislature. It was adopted in the Senate, by a vote of 17 to 15. The bill finally passed the Senate by the same vote:

finally passed the Senate by the same vote:

"That the provisions of this act shall not apply to any nantacturer of wine or cider, or brewer of malt liquors, or distiller of spirituous liquor, who shall make or distill the same directly from agricultural products, and who shall not sell or otherwise dispose of the same in a less quantity than thirty-one gallons! Neither shall they apply to the owner or occupant of any warehouse, or to any commission, shipping, or forwarding merchant who shall not sell or otherwise dispose of any of the above named articles in less quantity than above stated."

The Governor's Veto of the bill, extending the time for the redemption of property, sold under fore-closure in Chancery, is universally approved in this city. We do not suppose it possille that the Legislature, upon a sober second thought, can pass this bill, and we noticed a petition in circulation in our city, Saturday, praying them not to give countenance to so destructive a

" And there be some, who having wound their leathsome length into the top of some huge eminence, hang hissing at the crowd below." Whoever penned words of like import, with hose quoted above, possessed as fair a knowledge

pursued. Persons and things are sometimes crongly named in this age of invention, and a fair instance of this latter remark is seen in "An Inquiry" in the evening Wisconsin of the 9th inst. signed "Anti-Humbug." The whole article is a are piece of inconsistencies, from first to last; and plainly does he demonstrate that if any one needs make inquiries for information on many points, it is himself. He says :- "I go in for the largest religious liberty." A vory vulgar expression by the way, but into what? Into a denial of the privilege to others, to enjoy the "religious liberty which he goes in somewhere for. He says farther "If a man, like the Hindoo, thinks his spiritual condition improved by a few months repos (whew ') on a bed of spikes, I advocate his proection in the right to do so." The "Hindoo! would, undoubtedly, be obliged to " Anti-Humbug " for his aid, should be find out how willing. the is persuaded to enlist on the side of His Sa tanic Majesty, who is the chief prompter to such elf-tortures; and who, like this advocate, thinks a man should be protected in his right to debas his nature, and break the laws of his being thro gnorance, sordid as paganism can make it. But lindonism is a humbug, notwithstanding "Anti-Hembug" upholds it.

He adds:—"If a man thinks the nail painings of St. Anthony to be an amulet against disease, or tecident, I have no objection to his wearing the charm." This is another acknowledged humbug, against which he is not "anti." Most people would try to persuade a person, deluded in this which expected the removal of the Cherokees, in a manner that won the gratitude of the whole country. of St. Anthony to be an amulet against disease, of accident. I have no objection to his wearing the charm." This is another acknowledged humbug, against which he is not "anti." Most people would try to persuade a person, deluded in this manner, of his error; but " Anti-Humbug " likes such superstition right well, or at least has "no plection" to it. His entire ignorance of the sacrament of bap-

tism, is so pulpably shown, that I will farther quote his own words. He actually asserts :- " A parent has a right to baptize himself, or his child, y immersing or sprinkling in standing water or maning water, in oil, or can de cologne, in the Dead Sca, or in the Mormon Lake." tures command water, but one who is an "Auti-Humbug" in every respect, proscribes "oil" or 'East de Cologne." So much for his theology, and so much for his blasphemy. One thing puzzles him. He says of himself :-

I am curious to know what peculiar virtue the stale, viul-preserved water of Jordan possesses over heah apring water of Milwaukee, when applied by "the Succession" to the heads of infants : and if there is none, why should sensible men encourage the mummery of by-gone ages? He supposes the "vial-preserved water" of Jordirecting the Canal Commissioners to prosecute dan to be "state," of course, and hence his cutirigorously the work of enlargement, had passed osity, perhaps. In the mind of the Christian there are many hallowed associations connected with that river, in which our Savior was baptized, and near whose banks so many wonderful works were performed. But that there is a "peculiar virtue" in Jordan's water, no one will be willing to assert. Indeed it will not be contended that they are any better for the purpose of haptism than those of our own streams. Hence on this point, "Anti-Humbug" must still remain "curious to

His "Inquiry" however, seems to be but the out-pouring of a rancorous heart, either against the fair "Mary" who penned the "lines"-or against the "Succession"-against religion, or, minet him whose little Crars was baptized. As to the first, her position would seem to place her beyond the reach of a pen, dipped though it be it malice. As for the "Succession," it has with-stood the attacks of a host, under all sorts of false names, for the last throa hundred years, and there fore, will not mind this heel-bite. Religion will not be affected by any such language as this, and he whose Clara is thus made conspicuous, is too highly esteemed, to be in the least impugued by AIMEE. a thousand such " inquiries."

In these days it is fashionable for Presidential aspirants to talka good deal about their fidelity to the Union, as though con-clous that they would be distrusted without a pledge to do just what every patriot is expected to do without a pledge. Gen. Scott's name has been presented as a candidate for the Presidency; but neither himself or his friends deem it essential for him to make use of paper pledges. To the Senate and House of Representatives, at Al-DEAR FATHERS AND BROTHERS:-Wound DEAR FATHERS AND BROTHFRS:—We understand you are all at the great Council House at Albany, and that the great Council House at Albany, and that the great Council House at Albany, and that our While Brothers, all over the State, are sending wood to put on the Council Fire; but we 'finid the Council Fire will not burn bright and the council Fire; but we send this to make it burn. Now, Brothers, what we want to say is this:—We hear about our Brothers in the State of Maine—we hear that they find Great Rocce; this rogue, he get folks' money; some time. In the make family very poor—some time he make family very poor—some time he take 'way senses—some time he make family very poor—some time he make family very poor—some time he take 'way senses—some time he make family very poor—some time he way senses—some time he make family very poor—some time he way senses—some time he make family very poor—some time he way senses—some time he make family very poor—some time he way senses—some time he make family very poor—some time he way senses—some time he way senses—were time he way senses—some time he way way senses—some time he way way senses—some time he way way senses—s

take 'way senses—some time he make 'em very take 'way senses—some time he incress, and ragged and dirty, and 'some time he freeze 'em to death,'

Now we hear our brothers there—they try stop it—they try talk about it, see if can stop it little—but he wont stop. We hear at last our brothers won't bear it no longer—so they make law to knock him on head, any whete they, find him—in barrel, or jug or bottle, in tavern, grocery or barn, any where—knock him on head! Now wo want to tell you, Brothers, that this big Rogue has been here to Onondaga: he has made us great trouble. Some of our people would be very good if this bed fellow would keep away. We try—our people try some, too—but he will not. Now what we ask you is to make laws—such as our brothers in the State of Maine hand, midle—We have tried coax him—but he wion to coax; we try scare—he wont scare much; he still make We have tried coax him—but he wont be coax; we try scare—he wont scare much; he still make great deal trouble: we think bette: make law to knock him on head—then he make us no more trouble. We Christian party ask it, and some pagan, too—most all ask it—you make this law.

Now, Brothers—our people sold our land to white people, and white people make treaty—he is any ho be good to Indian. But he let this Rogue trouble us most too long. Now, Brothers, we was once great people, and we have gone to war for our white brothers; but now we are faw; and our white brothers are strong. We want you help us—we want you make this law, so when we find this Rogue we kill him. We see him great many, times, but we mean to be good; and peaceable, and so he got away; but it, you make this law, then we kill him, and then we live happy and friendly—no more cross—no, more inggred —no more fight, but miss corn, whast, oaks beans, cattle, horses, and some children too; no more get

THE PRESS AND THE QUO WARRANTO With very lare exceptions the Press of our State take very much the same view of the War upon the Banks as that presented in the annexed article from the Janesville Democratic Standard:

It strikes us that this is an unfortunate busi-ness for all parties—nothing could have been more, badly timed. If the banking of that company is illegal, Mitchell has at least proved to the world' that he has meant to wrong no one, and that his course has been highly honorable, thro' all states course has been highly honorable, thro' all states of the times, and under all circumstances. So much so, as to have obtained for himself a reputation for honesty and integrity that few of his opponents can boast of.

But it is by no means certain that his banking is illegal. He claims on the contrary, that it is in accordance with rights and privileges guaranteed to him by the State, and others as finally entertain the same opinion.

teed to mm by the State, and others as himly entertain the same opinion.

How aboud then, under these eiter instances,
and in view of the approaching time, when all
banking must be regulated by a general banking
law, to commence a prosecution that cannot have
a beneficial result to either party, but must necessarily subject the state to an enormous bull of
costs, and still further swell the amount of taxaties they the records are already errosping under. tion that the people are already groaning under, or increase the state debt which even now embar-

or increase the state debt which even now embarrasses the treasury.

The worst feature in the case is, the Governor's
undue anxiety to urge on the trial 'when Mitchell
agrees to submit to a general banking law arrangement, as soon as any such law shall take effect.

This certainly is all that could reasonably be
asked in the premises, and such a disposition of
the affair would save a vast deal of confusion and
embarrassment in business that would be the consequence of obliging that institution to now suspend its operations. Town Election.

Town Election.

The Whigs of Beloit did'a noble days's work on Tuesday. The vote was the heaviest ever polled at a spring election, and both parties were active. Notwithstanding the diversion caused by a third ticket, the Whig candidates were all elected by clear and handsome majorities—the first time that the whole Whig ticket has been elected since we have lived in Beloit.

In Turtle, all the Whig ticket was elected except one side Supervisor, Superintendent, and one Constable. L. P. Harvey, Whig Chairman, has 9 majority.

najority.

In Janesville, one Whig Justice and two Constables were elected. Belance Locofoco.

In Rock, the Whig Chairman was elected.

In Harmony, Whig ticket elected without oposition.
In Newark, Elam Pease, Whig, Chairman; one Assessor, Town Superintendent, and one of two Constables, Whig.—Beloit Journal.

Luc. The election resulted in the choice of the officers which will be found below—most of them
Whigs, which is rather a new feature for the Democratic City of Fond du Lac. We can however,
console oursolves with this fact, that all of them as
far as we are acquainted, are well qualified to
perform the duties of the officers to which they are ected .- Fond du Lac Democrat.

INPROVEMENTS.—We are pleased to learn that the contract for building our Harbor has been let to Mr. Hawley, of Milwankee, and that the work is to be commenced on or before the first of May next, and completed within eighteen months from the time of its commencement. Mr. Hawley is thoroughly acquainted with the business, having built the Harbor at Milwankee. The construction of our Harbor is now a "fixed fact."—Sheboyan Lake Journal. Lake Journal.

Returns of yestarday's election indicate the success of the whole Whig ticket, with probably three exceptions. Returns from the First Ward have not yet been received. Kennett is re-elected Mayor by 600 or 700 majority. A disgraceful riot occurred in the First Ward, which resulted in the death of one person, and wounding five or six others. Shots were fired from the windows of a German Coffee House, which, in addition to two or three other houses, was entered and destroed. The crowd was again fired on at the corner of 7th and Fark Arenues, when the windows and doors of the houses were instantaneously broken down, and the crowd fired the building and burnt it to the ground. Subsequently they were fired on at the corner of Park and Carondelet Avenue, and a member of Scion's fire company was mortally wounded. The house from which the shot was fired was immediately riddled and the crowd then pursued their way up town and quietly dispersed.

Later at night a crowd collected around the office of the Anzeiger de Westen, when the military were ordered out by the Mayor; and having formed, kept the block where the office is stunted elear until a late hour in the night. Nor the Information of non-resident contractors, it is proper to state that this read is intended to connect the city of Glasgow, on the Missouri River, with the town of Hunsvills, in Randolph Co. Mo, and is about twenty-eight miles in length. The country over which it passes abounds with suitable tabors, and is no other respects favorable to the chasp construction of plank roads. There are, however, a line streams which will require bridges of considerable catent.

The time for the completion of the road has not yet been fixed, and though it is describe to complete the road as toon as possible, yet sufficient time will be allowed contractors. Contractors may rely upon promptness in payments, as the mismio of the company are ample.

Those who wish to examine the route will receive all necessary information from Maj. R. Walker, the Engineer.

Bids will be received until the first of June next, when it is proposed to saing the "work to the bedden or bidders' whose proposals may be approved as most shorable to the company. Plans of the work will be reedy for inspection first of April.

For the encouragement of contracting companies, it is proposed to saing that it was to the bedden or inspection first of April.

For the encouragement of contracting companies, it is proposed to saing that it was the tother pask roads in contemplation in the vicinity, both of which will no doubt be constructed.

Communications are required in duplicate; one copy to be addressed to the undersigned at Huntsville, the other to F.A. Savage, Eag, Secretary of the Company at Glasgow, Mo., Feb. Jo. 1882.
